

INTERNATIONAL SAFETY AND HEALTH CONSTRUCTION CO-ORDINATORS ORGANISATION

Digitising Health and Safety and BIM

Alfredo Soeiro

Digitising H&S

- Digitising – different from digitalisation;
- Analogue to digital – digitising;
- Adapting models using new digital technologies – digitalisation;
- Faster and easier communications;
- Effectiveness and efficiency improve;
- Data increase.

- International Labour Organization elearning courses – [Labour Inspection](#), [Training Of Trainers On Improving Safety And Health In Small And Micro Enterprises](#)
- [How to digitise H&S? 3D Repo](#)
- Vision Zero Summit, Japan 2022, 11-13 May 22, [Room K](#), [Room F](#) and [Room E](#)
- [Deltek](#) – 5 Ways going digital (Risk and productivity) white paper from Richard Habgood

Examples

1. [Open and Scalable VR ^{*\)}](#)
2. [Working at Heights VR](#)
3. [VR Safety Training for Construction companies \(LandMarkVR\)](#)
4. [BIM and VR](#)
5. [SRI International Augmented Reality Solutions for Construction Inspection](#)
6. [CAT VR Training](#)

^{*)} VR = virtual reality
AR = augmented reality
